

THE NR.1 NETWORK IN CERAMICS

The Young Ceramists Network (YCN) is an initiative of the European Ceramic Society (**ECerS**) sponsored by the **Journal of ECerS Trust**.

This non-profit network aims at bringing together young students and professionals currently doing research on Ceramics.

**Head of Young
Ceramists and
Training**

Andraž Kocjan
(PhD, JSI, SL)

Nicolas Somers
(PhD-student,
UPHF, FR)

Antonia Ressler
(PhD-Student,
FKIT, RH)

Dominique Hautcoeur
(PhD, BCRC, BE)

Véronique Huart
(ECerS)

Maria Canillas Pérez
(PhD, ICV-CICS, SP)

Laura Tiainen
(PhD-Student, PT)

Marie Lasgorceix
(PhD, UPHF, FR)

Erkka Frankberg
(PhD, IIT, IT)

Laura Silvestroni
(PhD, ISTE, IT)

Your benefits from YCN

- **Make contacts, attend meetings, form links** between other young researchers and industry
- **Benefit from the exchange** of ideas and work experience, the access to research facilities and the **mobility** of its members in the European space
- **Funding opportunities**
- **Promote research** in the field of Ceramics

YCN provide you a platform to start to build your own network

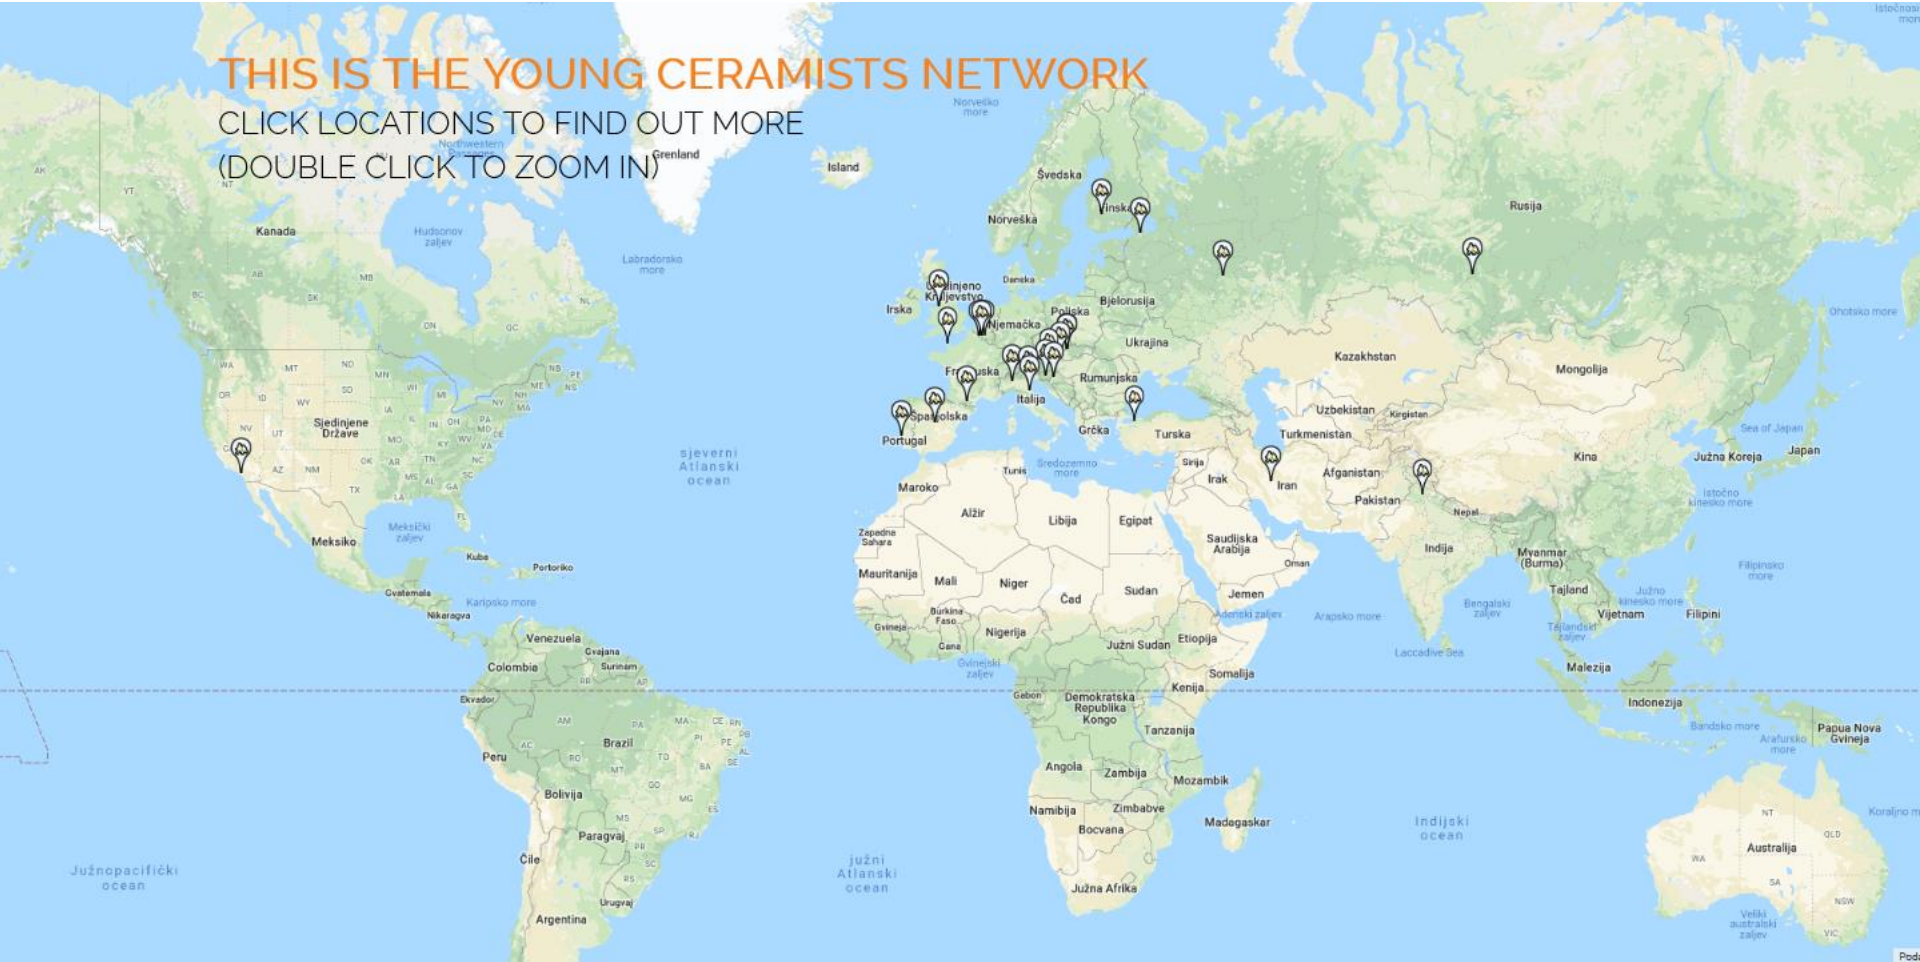

THIS IS the YCN

2019 YCN Student's Evening

The YCN Students Evening will be held on Tuesday 18th June at the Murazzi Student Zone during the 2019 ECerS Conference in Torino, Italy. Young ceramist researchers, that is, Master and PhD students including early stage PhD's are invited to register to attend the Student's evening to have the opportunity to socialize, interact and discuss their work in a warm and festive atmosphere. A great opportunity to start professional and/or friendly relationships, to initiate collaborative networks and plan lab visits. Registration is mandatory, and that you can fill it at the following link : <https://www.eventbrite.com/e/ycn-students-evening-tickets-57603061307> - Deadline for registration is 24th May 2019.

YCN Photo Contest

Send us your research pictures, the best will be awarded and announced during the student's evening in Turin. Submission deadline is 31st May 2019

[More information about the Photo contest can be found on the ECerS website](#)

The Thirteenth Conference for Young Scientists in Ceramics

CYSC-2019 will be organised at the Faculty of Technology, University of Novi Sad, Serbia, from 16 to 19 October 2019 - For more information please visit the ECerS website:

https://ecers.org/en/10/2019-the-thirteenth-conference-for-young-scientists-in-ceramics.html?cmp_id=24&news_id=160&vID=16

Researches in the spotlight

Bring your research in the focus and make it shine!

- [AMPHIBIA: AnisoMetric Permanent Hybrid magnets Based on Inexpensive And Non-critical materials](#)
- [Novel techniques for high-performance oxygen-conducting solid electrolytes and non-shrinkable constructive ceramics manufacturing](#)

Send your contribution for the next newsletter to : ecers@bcrc.be

Funding Opportunities

Do you know that ECerS and the JECS Trust can sponsor you to stay during a short or a long period in another European laboratory?

- [JECS Trust call for projects](#) : The JECS Trust sponsors activities or conferences involving a collaboration between different European Ceramic Society member countries, involving student/early stage researchers.
- [Frontier of Research call for projects](#) : Open to early stage researchers of the countries affiliated to ECerS, this proposal aims to promote frontier research in the field of materials, devices and processes related to all the application areas of ceramics. The competition scope is to run seed projects for further investigation in the case of positive outcomes resulting from these preliminary activities.

YCN committee members: In order to remain young, fresh, motivated and actively promote ceramic related research and events, the YCN steering committee has renewed its members. If you want to be part of it, stay tuned for the next vacancy in June 2019.

Dear,
I want to ask you if someone has DSC up to 1300 C. I need these masurements for some kinetics calculations. For more information, you could contact me in inbox.
Thanks in advance. 😊

SPECIAL ISSUE

The YCN Proudly Presents:
Young Ceramists in the Spotlight
A Special Issue in *Open Ceramics*

Open Ceramics, the official, peer-reviewed, Open Access Journal of the European Ceramic Society, published by Elsevier, invites research and review articles to be published in a special issue "Young Ceramists in the Spotlight".

The Young Ceramists Network (YCN) was established by ECSRS to build a platform and to promote the networking between young researchers and professionals being active in the ceramic-related fields from academia to industrial sector from around the world. With the help of newly established open access journal, Open Ceramics, the Young Ceramists Network aims to promote the visibility of their fellow ceramist researchers, who finished their PhD no more than 10 years ago, conducting excellent research in the field of ceramics by inviting to publish their works in a special issue entitled "Young Ceramists in the Spotlight".

Open ceramics welcome original research and reviews relating to all classes of advanced ceramic, glasses and composite materials including:

- Industrial Collaboration and Entrepreneurship in Ceramics
- Machine Learning Applied to Ceramics
- Advanced Structural Ceramics and Composites
- Refractories
- Innovations in Ceramic Synthesis, Processing and Manufacturing
- Functional Ceramics
- Ceramics for Energy and Storage
- Ceramics for Catalysis
- Bioceramics and Bioglasses
- Glasses and Glazes
- Functional Glasses and Glass-Ceramics
- Sustainability and Circular Economy in Ceramics

We kindly invite you to submit your work to contribute to this Special Issue. Submissions from the Young Ceramists Network members from around the world are particularly encouraged.
